HOLOCAUST EDUCATION SUMMER INSTITUTE

ADL is proud to collaborate this summer with Leah Warshawski & Todd Soliday, the filmmakers of Big Sonia, to provide a professional development opportunity for educators interested in Holocaust education.

Big Sonia is a film about Sonia Warshawski, one of the few remaining Holocaust-survivors in Kansas City who speaks publicly about her wartime experience. The film covers Sonia's past and present and demonstrates to students not only the horrors of the Holocaust, but the profound impact the Holocaust had on both survivors and their families over generations.

In addition to viewing the film, attendees will be trained in Echoes & Reflections--a dynamic curriculum created by three world leaders in Holocaust education-ADL, the USC Shoah Foundation and Yad Vashem. This free and engaging curriculum helps teachers navigate the lessons and history of the Holocaust to provide meaningful, engaging lessons for their students.
